City Council Backs Fire Department To Buy Armory Hall

Firemen, Anxious to Preserve Famous Landmark for Many Years of Community Use, to Make Drive for Public Subscription

A committee of the Fire Department Delegates appeared before the city council last evening with this proposition: That the department would buy Armory, also known as Redmen's hall, at certain figures, paying for it in annual installments, if the city council in the meantime would guarantee their expenses, much of which in past years has been paid for out of funds raised by the fire department itself.

The committee appearing before the city council consisted of Fire Chief Louis Kopp, R. L. P. Bigelow and E. J. N. Ott.

The council agreed to this proposition, but added the proviso that the fire department immediately conduct a drive to raise at least $500 as indication that the public desires to preserve this historic old hall for community purposes.

Chief Kopp in presenting the proposal to the council stated that the owners of the building had given them an option on it for a very short time at the lowest figure it has ever been offered. If the city council or the fire department does not purchase the hall, the owners have an offer to purchase the lot and building by private individuals who will immediately tear it down and erect thereon an apartment house.

R. L. P. Bigelow stated that there was not the slightest doubt that the fire department could raise the necessary money over a term of years. But he did believe that the council should agree to defray expenses of the department for equipment and other disbursements during the term in which the department was putting its funds into the purchase price.

The annual firemen's ball, the main money raising event of the fire department, proceeds of which are usually used for the purchase of equipment, would have to be used to pay annual installments. If the hall were torn down the fire department, he stated, would have no place to give its annual ball, and thus, in any event, the city would have to shoulder the expense of maintaining the fire department, without help from the department itself.

Councilman Benjamin Hall declared it would be a test of public interest in preserving the hall, if the firemen were able to put on a drive for private subscriptions and raise $500 by this means, they could feel assured then that the pepole of Nevada City were determined that this historic old landmark should not be destroyed.

Councilman Wade Armstrong called attention to repairs and strengthening which the building would need in case it became a public building, owned by the fire department, but the firemen's committee were confident they could care for that.

E. J. N. Ott stated that he was certain that $500 could be raised in a very short time by public subscription.

A meeting of the entire fire department will be called for this evening, and at that time it is expected a committee to carry on the fund raising drive, will be named.

GENERAL FUND

Ada Rich, $85; W. G. Robson, $125; George H. Calanan, $20; E. M. Foley, $12.50; Miles D. Coughlan, $12.50; W. C. Jeffery, $65; Herbert Nevada Irrigation District, $337.80; P. G. and E., $248.60; E. Hilliard, $674.68; R. D. Curnow, $465.80; P. C. A. Co., $4874; City of Grass Valley, $22.50; Chas. R. Harley, $14.99. Service Garage, $7.58; The Plaza Garage, $7.27; Webb Motors, $3.35; Chas. Sharp, $109; Nick Sandow, $109; Chas. Hoskin, $89; J. Pearce, $88; Arthur Pratti, $87; C. Thomas, $61; H. M. Hallitt, $56.50; S. S. Trevethick, $42.

H. S. Hallitt, $62.50; P. G. and E. $3.84; P. T. and T. $3.94; California Extinguisher Co., $55.11; Capital Fire Extinguisher Co., $10.80; Clelands Service Station, $1.08.

NEVADA CITY AND SAN JUAN GRIDDERS TO MEET

Coach Bev. Barron is giving the Nevada City high gridders snappy workouts each evening now. He is developing a new shift, and believes its timing by the time the game with that the team will be proficient in San Juan rolls around tomorrow afternoon on San Juan's campus.

He is devoting a large part of each evening's exercise to defense and blocking. With one or two exceptions the line up will probably be the same as that of last Friday when the team went down to defeat before the hefty eleven of Grass Valley.

ARMISTICE DAY PLAN PREPARING

Preparations are now going forward by the American Legion post for Armistice Day parade, program, banquet and dance. Maurice Kach is chairman of the Armistice Day dance committee and he is employing a seven piece local orchestra to provide the music.

Arrangements have been made for the participation of school children, fraternal, civic, and patriotic organizations in the great parade which will start at 10 o'clock on the morning of November 11. Howard Bennetts is chairman of the Parade Committee.

Luther Marsh, of this city, is in charge of the program and he is rapidly obtaining the talent to make this feature of the day especially interesting. The program will follow immediately after the parade, and will be held in Memorial hall.

UNCLE SAM PAYS $32.26 FOR GOLD

The RFC yesterday again advanced its price for gold, purchasing the yellow metal for $32.26 an ounce, 10 cents above the price of Wednesday. Apparently in response to the United States' bid for gold the quotation for the metal rose in the London World market to $32.11, as compared with $31.52, the day before.

The theory behind Roosevelt's program is that if gold prices can be raised and held at a high level both here and abroad, there will be an automatic adjustment which will carry domestic commodity prices upward as well. Higher prices is the first objective of the president's recovery program.

ELMER FORD ACCUSED OF DRUNKEN DRIVING

An information has been filed in the Nevada County Superior Court by District Attorney W. E. Wright against Elmer Ford of Forest Hill, Placer county, who is charged with driving an automobile while intoxicated.

The car driven by Ford side-swiped a car driven by Westly Davis of Sacramento on the Auburn highway below Grass Valley recently.

Mrs. Gloria Spiers, grand representative of Neighbors of Woodcraft, who came up from Fair Oaks, Sacramento county, to attend a session of Champion Circle, is spending a few days in Nevada City with Mr. and Mrs. William Kervin. Mrs. Spiers and Mrs. Kervin were once residents of Tonopah, Nevada and are enjoying a visit together.

Carries Cycle as Plane 'Spare'

When Alex Brun, above, Cincinnati aviator, is compelled to make a forced landing, he always is assured of immediate transportation back to civilization. This tiny one-cylinder motorcycle, which he designed, is always in his plane for use in case of emergency. Weighing only 90 pounds, the tiny vehicle can go 35 miles an hour and travels 110 miles on a gallon of gasoline.

HALLOWE'EN IS CELEBRATED TOO MUCH FOR PEACE

Bands of youthful celebrants held sway Hallowe'en, defacing show windows, automobile windshields and windows with soap and candle grease tearing up fences, hiding gates, of which, along with ash cans, many will probably be "lost" for sometime.

Merchants who hired boys to clean their windows after the "celebration," did so in the hope that the boys hired had no hand in daubing them with candle grease.

Some people were inclined to complain that the police failed in their duty, but there are only two policemen, and a great many boys were engaged in the merry pasttime of giving people who sleep o' nights a lot of trouble. There were too many boys and too few policemen for this occasion.

One way to avoid the expense and annoyance of Hallowe'en pranks tried with relative success in other cities is to invite boys and girls to many Hallowe'en parties, given under the auspices of churches, fraternal societies and civic organizations, thereby turning their youthful exuberance, energy and disregard of property rights into channels as fully satisfynig to the boys and girls themselves, and much more conductive to public peace and safety.

George Lysterup, who has been in Salt Lake City, Utah, for the past two weeks, returned home Wednesday evening. He was a former resident of Salt Lake City and was called there in regard to a trial.

LOG LODGE IS PROPOSED FOR SCOUT TROOP

At a pleasant ceremony Wednesday evening, several members of the Nevada City troop of scouts were awarded merit badges and promotions in rank. The court of honor was held in the Superior Court room and Judge Raglan Tuttle, chairman. made the presentations.

Among those present were Judge Tuttle, M. D. Coughlin, H. A. Curnow, district chairman, Beverly Barron, Richard Parsons scoutmaster, R. Nelson, Ellis Clark, Mr. McGinnis, Mr. and Mrs. Ray Wilde, and Mr. and Mrs. W. C. Perry.

The ceremonies opened with members of the troop repeating the scout oath They were led by Patrol Leader Ray Wilde.

BEAR PATROL PRAISED

Following the awards, Judge Tuttle in an informal address praised the Bear patrol for its prowess in obtaining third prize in the camporee recently held at Auburn. He stated that he believed that District Scout Committee would soon be in a position to purchase additional equipment for the troop, and that the committee is contemplating the erection of a log lodge within the city as a meeting hall and home. He announced that Mr. McGinnis, a teacher in the schools here is helping in the scoutmaster's duties with the troop.

The following awards were made:

MERIT BADGE AWARDS

Ray Wilde, Athletics, First Aid.

Albert Pratti, Interpreting, Swimming, Wood Carving.

Walter Brown, Leathercraft.

Nathanial Robins, First Aid.

Clemens Organ, Bookbinding, Firemanship.

ADVANCEMENT BADGES

First Class Badges awarded to Dick Tuttle and Bob Small.

Life Scout Badges awarded to Scouts Albert Pratti and Ray Wilde.

A cloth emblem in the form of a letter "B" was awarded to the Bear Patrol of Troop 6 as a reward for winning third place at the Camporee held at Auburn October 21, 1933.

Horace A. Curnow, district chairman, told of the interest members of the Nevada City Scout Committee were taking in the work of the troop and spoke of the proposed plans mentioned by Judge Tuttle.

DISTRICT COMMITTEE MEETS

At the meeting of the District Committee Monday evening in the Chamber of Commerce, ways and means of providing a home for the Boy Scout troop or troops of Nevada City, were animatedly discussed. It had been suggested that the cost of building a log hut of ample proportions would be comparatively action so that building might be completed in time for winter use.

At present, the committee members admitted, meeting places for the boys are not suitable for their purposes, and that even these are somewhat uncertain tenure.

Horace A. Curnow, chairman of the district committee, presided at the meeting.

Nevada County Fights Depression With Gold

In round figures Nevada county last year produced gold valued at $3,424,000, in round figures, last year. Evrey ounce produced is bullet aimed at Old Man Depression. And in this war Nevada county is the front rank of the fighters, leading all other counties of California, and standing high among the gold producing sections of the world.

The Bureau of Mines reports that California produced $12,066,750 worth of metals in 1932.

Gold production in the state last year totaled 569,166.99 fine ounces, against 523,135.09 in 1931, but the production of other metals declined sharply. Only 493,533 fine ounces of silver was produced against 867,313 in 1931, only 1,417,876 pounds of copper against 12,931,955, only 2,417,416 pounds of lead against 3,757,256, and last year no zinc was mined while in 1931 California produced 159,865 pounds of that metal. General softening of the markets for the baser metals was recorded in 1932.

Thirty-eight counties, of the state's fifty-two, produced gold. Nevada county reports production of 171,112 ounces from quartz mines and 5,011 ounces from placer. This total of 176,123 valued at $3,424,000 leads every county in the state by a wide margin. Sacramento with its placer production of 101,599 ounces, is second, and Amador with its big output from the Kennedy and Argonaut mines is second with 63,262 ounces. Tulare county with a production of 6.80 ounces is at the foot of the class as a gold producer.

RAINFALL HELPS GRAVEL MINE AT FRENCH CORRAL

The French Corral gravel mine has been short of water for operating their drag line and trommel, but since the heavy rain of this week it it reported that there will be sufficient water for all needs.

Six men are steadily employed at the property and the company is making a good showing in gold recovery. Ben Maddox is superintendent.

Gold Order Puts 2000 More Miners To Work

The State Division of Mines reporting to Governor Rolph on November 1, states that 2,000 men have found employment in the mining industry since President Franklin D. Roosevelt issued his order on September 5 permitting mine operators to obtain the world price for gold.

The actual figures submitted show 2,031 men newly employed in a little less than two months.

In the Idaho Maryland mine in Nevada county, 100 men have been put to work as the result of the order, while in the entire county, reemployment has been provided for an estimated total of 305 men.

The number of men returned to work in each California gold mining county follows:

Siskiyou, 75; Trinity, 75; Lassen, 50; Plumas, 75; Butte, 50; Shasta, 60; Sierra, 45; Placer, 100; El Dorado, 105; Amador, 42; Calaveras, 25; Tuolumne, 200; Mariposa, 134, and Sacramento 60.

In some cases, mines which had been closed have been reopened with the better prospects of profitable operation afforded by the increased gold prices.

FOREST SERVICE PUTS 50 MEN ON SIERRA CO. ROADS

About fifty men are now employed on roads in the Downieville section which were supplied by the National Re-employment Program.

Two road camps have been established in Sierra county by Forest Supervisor R. L. P. Bigelow of the Tahoe National Forest.

The first project now is working 35 men on the Wild Plum-Haypress road leading from the Yuba Pass road near Sierra City to the Ridenger Place in Haypress Valley where it will connect with a road to Weber Lake and Truckee. The road being constructed is approximately nine miles long.

The Haypress road, long needed by the Tahoe National Forest Service has a connecting link between Sierra City and Hanness Pass road. It follows up Haypress Creek where there is a fine stand of timber and through a lightening zone territory where the forest service had to extinguish numerous fires. Men fighting on these fires have had to travel afoot or horseback a number of miles to get to them. This road will aid in holding these fires to a small area by quick transportation.

RECREATION CENTER

Sierra City is fast becoming a recreation center and fishermen's paradise. Haypress Creek is one of the good fishing streams of that region. This road will give easy access to the fishermen and will also give the campers a good road to travel over to Wild Plum Forest Service camp ground which is extensively used by campers during the summer season.

Twelve men are employed on the Empire Ranch road which leads from Downieville to the Middle Fork of the North Fork of the Yuba river. This road will be about five miles long when completed.

EMPIRE RANCH ROAD

The Empire Ranch road opens up an area north east of Downieville, where the Forest Service has had numerous fires and it has been slow and difficult work to transport men to them. As a result of this handicap most of these fires have become large ones and were costly for the Forest Service to suppress. This road will make transportation much faster in a dangerous fire region. Incidentally this road will be an aid to the miners in this region and will also open up to automobile traffic some very good fishing.

The Indian Valley-Slate Creek road will be started as soon as the camp, which is being built at Indian Valley is completed. This road will be six miles long. It will start at the North Fork of the American river highway bridge and go down the river on the north bank to Slate Creek. It will open up an inaccessible area of the Tahoe National Forest where it is now difficult to transport men in case one starts in this region.

NEW CAMP TO OPEN

It is expected work will soon start on another N. I. R. A. camp of approximately 30 men at the Oregon Creek camp ground near Freeman's Crossing in Yuba county. This camp has not yet been approved but it is expected to be shortly. At this camp there will be several roads improved especially the Forest City road from Freeman's Crossing to Forest City. Work will be done from Freeman's Crossing to Oregon House which is a rough stretch of road and needs considerable betterment. A road is also planned to Hess Peak near North San Juan where it is planned to place a Forest Service lookout station. The men will be used, however, on hazard reduction work, clearing fire breaks on points, felling snags which are a hazard, do road side clearing for fire break purposes and constructing and opening up new trails in the Moonshine region.

All of this work is being pushed to aid in the re-employment program which is a part of the N. I. R. A. objective.

NEW MINT RULES AID PANNERS

The government's gold marketing regulations now permit the small gold prospectors to sell their gold to state licensed bullion buyers without the affidavits, showing the source and date of mining, being notaried.

While the new rules are almost identical with the former regulations they now permit the bullion buyers to turn in their purchases with affidavits sworn to by the buyers themselves, listing the names and localities of the prospectors from whom they purchased the gold.

Producers who still ship their gold directly to the mint will still be required to make out affidavits.

This new ruling will affect thousands of California's small gold snippers.

On the other hand the goid buyer has to pay all mint charges in advance of the gold being certified to the R. F. C. The mint will notify as to the amount of the charges, and until they receive postal money orders, (no personal checks), or cash, the shipments will be held up. Formerly the amount of charges were deducted from the gold and the balance sent to the buyer. These charges run from $1.25 to $2.50.

The length of time between receipt of shipment and payment is indefinite, but will be handled as expeditiously as possible.

Payment is made in 90 days debentures of the R. F. C. These can be discounted at the Federal Reserve banks or any bank and cash realized. In other words, the Reconstruction Finance Corporation sends you a 90 day note for the gold and these notes can be discounted in the banks on the day of receipt.

SKI CLUB WILL MEET TONIGHT

There will be a meeting of the Ski Club this evening in the Nevada City Chamber of Commerce assembly room. Club leaders state that it is imperative that every member of the club be present to discuss and to decide upon a winter program. There will also be an election of a new president.

It is reported that the Ski Club last year earned approximately $1,000, and that this year should show larger receipts and still larger attendance at the winter sports which are now centered at the club house. Marysville, Sacramento and all valley towns within their immediate vicinity, look on the Ski-course as one of the best in the Sierras and have patronized it liberally.

But thus far nothing has been done toward providing winter sports lovers with a program. It is especially urged that every member attend tonight's meeting.

ASPECTS OF INFLATION

Would monetary inflation solve the nation's economic problems? California editors view the question from many angles.

On one point, however, they seem agreed—it would be difficult to adjust the purchasing power of money so that it would help those who need help and at the same time hold in restraint those who do not need help.

"There has been little financial inflation so far, in spite of all the talk about it," remarks the Redding Courier Free Press. "The government has had authority, but hasn't done much about it except by suggestion. The obvious desire is to inflate as little as possible and hold the big cards till the last. Lately, with business groaning heavily about half way up the hill, and a new lift needed, there is more inflation talk. Something definite may be done about the dollar—though nothing that the public has not been warned of for some time."

According to the Hayward Review, "it is said that fears of monetary inflation and general uncertainty of monetary policies of the administration, have caused a drying up of sources of credit and resultant slowing down of the recovery program. Industries are hesitant about borrowing, bankers are reluctant to loan, because of inflation uncertainty. There is no capital loan market, and it is said by financiers that without a capital loan market business cannot expand, in keeping with the NRA hopes."

Plentiful money would, among other things, be expected to ease the vast burden of debt, said the Berkeley Daily Gazette, adding: "That debt, say friends of the plan, was nearly all assumed before the depression. For the same reason, they hold, there would be little injustice regarding savings bank deposits and insurance funds, because nearly all of them represent deposits of cheap, pre-depression dollars rather than the dear dollar we have had recently."

"What the President fears," comments the Salinas Index-Journal, "is that blanket inflation will immediately raise all prices. Without a corresponding increase in wages that would be a calamity. The farmers, who are among the strongest proponents of inflation, would gain nothing if they found that while prices of their products were rising so also were the prices of everything which they had to buy. Their position then would be relatively what it is now, and the position of the wage-earner, unless his pay check were increased, would be deplorable."

"It is easy enough to cry inflation," points out the Beverly Hills Citizen. "But it is hard to adjust inflation. The first thing inflation would do would be to bolster the stock market. Even the thought of inflation last spring brought in the sheep for the summer shearing. How many of them would be clipped? How much money would again be drawn in from the country for the Wall Street vultures? It's a delicate job, this inflation job. The President will attempt it when all other mehods fail."

KIDNEY TROUBLES AND IT'S CAUSES

What is the cause of kidney trouble? Irritation! Irritation of the kidney may be brought about by anything that puts extra work upon these organs. If you are constipated or your liver becomes inactive, and the blood is charged with poisons, and the kidneys are called upon to overwork, you catch cold nad the millions of pores of the skin are closed up... The kidneys bear the burden of this sin. What is the result of this overwork, or irritation? First, congestion, then chronic acute inflammation and finally degeration of the kidney cells.

Get the liver, stomach and intestines into working order, and thus take the excess work off the kidneys. By flushing the colon with hot water, the liquid passes directly in front of both kidneys, so that the influence of the heat on the kidneys is direct. It cannot fail to stimulate them to action —without irritating them. The kidney can be washed out by taking one cup of Herb tea each day before going to bed. This herb tea, made from six kinds of hrebs, has been used in China for thousands of years with wonderful results. Sometimes, if a case is complicated, herbs may be changed or added to get the best results.

About seventy-five per cent of the men over forty years of age in the U. S. A. have kidney trouble or weak kidneys. Many of them do not know it. Most people do not realize the alarming increase and prevalency of kidney disease. While kidney disorders are among the most common diseases that prevail, they are almost the last recognized by patients, who usually content themselves with doctoring the effects, while the original disease constantly undermines the system.

Weak kidneys may cause lumbago, rheumatism, catarrh of bladder, pain or dull aches in the back, joints, or muscles, and at times headache or indigestion. As time passes there may come a sallow complexion, puffy or dark circles under the eyes, keaknes and loss of flesh. If such conditions are permitted to contniue, serious results are sure to follow. Kidney trouble in its worst form may steal upon you.

If you feel that your kidneys are the cause of your sickness or rundown condition, begin taking our famous Kidney and Bladder Herb remedy. As soon as your kidneys are well they will help the other organs to health.

TRAFFIC BUREAU TO WEED OUT ALL UNFIT DRIVERS

SACRAMENTO, Nov. 3—Immediate steps looking toward the tightening up of regulations governing the issuance of drivers licenses in California will be taken by the Department of Motor Vehicles.

This announcement of the Department's policy was made today by J. A. McGilvray, recently-named chief of the departmental division of drivers licenses, who said its intent was to curb motor accidents. The steps to be taken include:

1. A closer scrutiny of court records of motor violations to eliminate the habitually-careless and unfit driver.

2. Greater centralization of departmental machinery for giving examinations to prospectiye new drivers and the issuance of renewed licenses to old drivers.

3. A "stiffer" examination of prospective drivers both as to their knowledge of driving regulations, their physical qualifications and driving experience.

4. Greater use of the department's power to revoke licenses for cause.

5. More stringent regulations governing the use of motor vehicles by the young and inexperienced and a possible greater use of the law permitting the issuance of restricted licenses.

McGilvray announced that a possible part of the program would be the calling in of a large number of licenses issued prior to 1929 for renewal. This would put holders of such licenses in the same classification as drivers to whom licenses good for two years were issued after 1929.

The department will require obedience to the law requiring every operator of a motor vehicle to carry his license to drive upon his person and exhibit it at any time an officer of the law requests it.

The assistance of the more than 500 members of the California Highway Patrol will be drafted in the program.

McGilvray explained that the department feels the importance of the operator's license has been underemphasized in the past and that it is felt a more careful administration of its issuance and use will result in accident reduction.

Mrs. R. Paine and daughter, Miss Genevieve Paine, were recent visitors in San Francisco.

STOCKTON HILL MINE ERECTING HEADFRAME

Elmer Boring, who has started operating the Stockton Hill mine, half way between Grass Valley and Nevada City, is having a 30 foot headframe erected. He has just completed erecting a hoisting house and installing machinery to work the property.

The Stockton Hill mine is a quartz property with the ledge matter carrying good values in gold.

A crew of three men are employed at the present time.

Mr. and Mrs. Otto E. Schiffner and son, Cecil, motored to Reno, Nevada Saturday where Mr. Schiffner attended to business affairs.

Epworth League Observes Hallowe'en

The Epworth League on Tuesday evening celebrated Hallowe'en with a large party at the Methodist church. A great variety of interesting games were played those who attended voted it one of the most enjoyable affairs of the season.

Ed Lang motored to Nevada City Saturday evening on a short visit; his wife returned with him for a visit to their home at the Grant and Heether Saw Mill.

American Heroines
By LOUISE M. COMSTOCK

Anne Hutchinson

AMERICA has her Joan of Arc, though in her time she was called less flattering names: "The New England Jezebel," a "notorious imposter," a "Dayngerous Instrument of the Devell raysed up by Sathan!"

The history books will tell you that Anne Hutchinson taught the people of Massachusetts Bay Colony religious ideas which their governor, John Winthrop, and other leaders could not condone, was therefore banished and moved to the shores of Narragansett bay, where she started the town of Newport. These are the bare facts of a rich and thrilling story. Anne Hutchinson came to America in 1634, when Boston was but four years old. She was a woman of forty-three years, wife of a well-to-do but doubtless hen-pecked mercer, mother of fourteen children. She was a preacher's daughter and extremely religious.

Martin Dellea, who owns mining property in the Quaker Hill district. is spending this winter in Nevada City with his wife.

Shopping Gossip

Well, Nadine, since its such a dreadful day we will take the car and run down town. Here we are at Penny's. I want to get a Raincoat at Penneys and I am going to have an umbrella too, to match my dress. Won't that be great? They have such lovely ones in blue, brown and green and really there is notihng a man could wish for on a raiey day, that cannot be found there. Rubber boots, Slickers and Rain coats, and such beautiful leather jackets at $6.90. The boys leather jackets lined with fleece, look so comfy and warm. It must be a pleasure to sell these lovely things.

Now we must rush over to the Phoenix Drug Store and have Mur De Brucque give us a free facial. These lovely Elmo Creams do something wonderful to ones face. For a real buy here is your chance.

Here is the Stewarts Cafe, they are all polished up for business. Neil Franklin who has had charge of the culinary work at Larry Moore's cince his purchase of the Old California Cafe on Mill street is now interested with Mr. Stewart at, what is known as the Stewart Cafe. Mr. Franklin who has years of experience in culinary work, promises the best dishes for the winter season at moderate prices.

Did you ever see such wonderful values in Raincoats, Rubbers, Umbrellas, men's and women's swade coats, and slickers as they have in the Golden Rule. Just look on the shopping Gossip page and notice the display add which tells you their complete line. One cannot go amiss buying here for a rainy day.

Did you know Nadine that the Golden Rule Barber Shop is doing a marvelous business and you will always find the lady in charge very willing to please.

WOMAN RECOGNIZES DRESS STOLEN BY THIEF

LODI, Nov. 2—(UP)—Attracted by the dress a woman occupant of a stalled car was wearing, Mrs. Ben Muller stopped her car and engaged in conversation.

Satisfied she recognized the wearing apparel stolen from her own home, Mrs. Muller reported the machine's license number to highway patrol officers. The car was traced to Stockton.

The stolen dress was recovered, along with many other articals taken in recent burglaries.

Champion Circle Entertain Visitors

Champion Circle, No. 325, Neighbors of Woodcraft, held a meeting in the Odd Fellows hall Thursday evening.

They entertained the following visitors, Grand Representative, Gloria Spiers of Sacramento, Cora Moore of Sacramento; and the drill team of Golden Circle, Neighbors of Woodcraft, of Sacramento, who put on a special drill. The District Guardian Neighbor and Mamie Crittenden of Oroville were also present for the splendid meeting.

After the business of the evening was over, a social time and refreshments were served.

The Rev. Monsigneur Father C. A. Ramm and his sister Mrs. Anna Ramm Marsh of San Francisco arrived a few days ago on a vacation visit at the home of their brother and sister John G. and Emma J. Ramm.

New Meat Market
Nevada City Highway, Hills Flat.
Number One State Inspected Meats At Lowest Prices

COMPLETE REFRIGERATION Throughtout

Come in and see us and you will want to come again. You will be pleased with the Excellence of our Meats at Prices which meet your pocketbook.

Let's get our meat today at the New Market on the Nevada City highway. Their meats are all government inspected and as fresh as one could wish, and such prices are not easy to find.

There seems always to be a crowd in the Union Shanty. I guess most people enjoy those excellent hot hamburgers.

I had a lovely Duch Lunch at the Midway Barbecue the other day. It's lots of fun to go out there of an evening and enjoy the cozy comfort and good eats.

Bang! there goes another windshield. That means more work for Carters Glass Company. No need to be delayed either, for they fix it on the dot.

Well Nadine, did you see the children's parade the other night? It won't be long now until the windows will be gay with Xmas things. And then will we have something to talk about, and how!

Good bye I'll be seeing you.

Fashion Notes

Dresses this winter as well as suits tend to drabness in color, but for all that one need not appear drab, for fashion favors the little hat in flaming color such as green, red, blue and even pink. These with the scarf to match lend a note of color to my lady's ensemble, which carries with it just the right element of chic, but be sure to choose the right color.

Broaches of gold and in ornamental design are being worn at the neck to relieve the severi—ty of the high necked gowns with pocket-book sleeves and shoes as usual match the general tone of the costume worn.

MRS. BELLE THOMPSON HURT IN ACCIDENT

Mrs. Belle H. Thompson, owner of Belle's Beauty Shop in Grass Valley, slipped and fell Monday morning, injuring her hip and badly spraining her back. The accident will keep her incapacitated for several days. She had just returned to her work, following an operation for the removal of her tonsils at Wheeler hospital in Colfax, when this accident occured. She suffered severe shock but is progressing toward recovery nicely and expects to return to her shop in a very short time.

Hallowe'en Party For Honor Society

The Honor Society of the Nevada City high school were guests Tuesday evening of Miss Elinor Willoughby at a charming Hallowe'en party at the home of her mother, Mrs. Elsie Willoughby. All the favorite games of the Hallowe'en holiday were played and delightful supper served at the close of the evening.

Billie Buffington celebrated his sixth birthday, Sunday, October 29th at his home on Winter street. A delicious dinner and a big birthday cake was served. Family members were present for the occasion and everybody enjoyed the happy event.

After Polar, Then Altar Trip

When Paul Siple, famed Erie, Pa., Eagle Boy Scout, returns from the South Pole, he will embark on another voyage—this time on the Sea of Matrimony. Ruth I. Johannesmeyer, above, of Meadville, Pa., has announced their engagement. Siple, who accompanied Admiral Byrd on his previous polar trip, is shown above with the flag he will place at Little America on behalf of the Boy Scouts of America.

Marilyn and Erik Andersen Celebrate Hallowe'en

Little Marilyn and Erik Andersen were delighted with a Hallowe'en party given them by their parents, Mr. and Mrs. Christian Andersen and their grandfather, John R. Pavilla, Tuesday evening at their home on Boulder street. Mr. and Mrs. Russell Champie and their young daughter, Finette were guests.

Apple bobbing, corn popping and marshmallow toasting were among the diversions of the evening. Decorations were in all the fall colors with Hallowe'en motifs prevailing.

Mrs. E. Brown, of North Columbia was a Nevada City visitor Friday. Mr. and Mrs. Brown are quite pleased with the store they recently purchased and are operating at North Columbia.

Hallowe'en Party At Bolton Home

Misses Alberta Bolton and Evelyn Lotz gave a Hallowe'en party Monday evening at the home of the former's parents, Mr. and Mrs. Harry Bolton on Walrath avenue in Nevada City.

The home was beautifully decorated with autumn leaves, flowers and Hallowe'en characters.

All the guests came in Hallowe'en costumes.

Several hours were spent in playing games and prizes were awarded to those making highest scores.

Delicious refreshments were served at a gaily decoraetd table .

Those enjoying the evening were Misses Rosella Biggs, Mary O'Shaughnessy, Agatha Gates, Patty Banjamor, Adeline and Maragret Deason, Leona Lotz, Georgia Glennon, Evelyn Lotz and Alberta Bolton.

Mr. and Mrs. Will Jeffrey and son Charles, and Mr. L. E. Sweeney, music instructor, spent last week end in San Francisco and Berkeley, visiting relatives and attending the big U. S. and U. S. C. foot ball game on Saturday. Mr. and Mrs. Jeffrey's son Will Jr, is a freshman at U C. Berkeley.

Central Valley Water Project--Pro and Con

By GEORGE E. HELMER

SACRAMENTO, Nov. 5—(UP)—One of the most intensive fights in a year of hectic political and economic development is centering on the Central Valley water project, on which the people of California will vote December 19.

Praised by proponents as a measure which would bring great financial aid to the state, attacked by opponents as a useless expenditure of millions, the project was passed through the legislature as Assembly Bill No. 259. The referendum was invoked to permit the people to vote on the bill.

The plan calls for expenditure of $170,000,000 for the construction of dams, canals and power plants. It would include a dam 420 feet high at Kennett, near Redding; a conduit from the Delta to Martinez to furnish water to industries along Suisun bay; a series of dams on the San Juaquin river, and a large dam a Friant, near Fresno, with canals leading north and south.

Supporters of the project led by Governor James Rolph, Jr., point out that 25,000 men would be given employment for at least three years. They claim all costs would be defrayed through federal aid and a revenue bond system, or self-financing plan which requires that revenues of the project pay for the work.

Opponents, disergarding the employment angle, deny the work would be accomplished "without a single dollar of cost or obligation to California taxpayers." They deny that the federal government hsa promsied aid. They insist the state and the taxpayers would stand the expense.

On the basis of official arguments prepared for inclusion in the pamphlet which will be distributed to voters, the average layman may gain the impression that the immense project would be a gift of the government, a godsend to farmers and urbanites alike; or that it would be a tremendous burden on a state already bowed under heavy expenses that necessitated a sales tax.

Proponents, led by Senators Bradford S. Crittenden, J. I. Wagy, Frank W. Mixter and Assemblyman Chas. W. Dempster, set forth the following arguments:

—Immediate employment for 25,000 men.

2—The project may be completed without a single dollar cost or obligation to taxpayers.

3—All costs will be defrayed through federal aid and a self-financing plan based on revenue bonds.

4—"Neither the payment of the principal or any part thereof, or any interest thereon, constitutes a debt, liability or obligation of the state of California.

5—The project would solve the water problems of the Sacramento and San Joaquin valleys and of the San Francsico-Oakland bay area for genertion to come.

6—Surplus flood waters would be conserved for summer use, saving thousands of acres from return to desert; navigability of the Sacramento and San Joaquin rivers would be increased.

7—Hydroelectric power would be produced at low cost and would be sold to pay expenses of the work. Cheap electric power would be made available to farmers, home owners and industrialists, cities and districts.

8—Failure to approve the project would mean, loss of an outright grant of $43,000,00 from the federal government.

9—Chief opposition comes from the "power trust."

10—The act would reduce power rates, bringing millions of dollars in savings in that respect.

Senators Arthur H. Breed, J. A. McKinley, W. P. Rich and Assemblyman Clifford R. Kallam signed the official "argument against" which insisted:

1—Assembly Bill No. 259 was adopted hastily as a patch-work measure.

2—The futility of reclaiming certain lands and bringing into production additional lands in the southern portion of San Joaquin, thus increasing the unsalable crop surplus is apparent.

3—It is not certain that the Sacramento valley will always have water to spare. Once communities in the San Joaquin become dependent on water from the Sacramento, they will find a way to keep it. Thus, development of the Sacramento valley will be limited.

4—To the region south of Tehachapi, the bill is nothing but a liability.

6—The bill provides that the treasury of the state may aid in constructing the project.

7—The federal government has made no promises of aid.

8—Profits from energy sales are likely to be illusory in view of the excess energy in California (now 50 per cent over demrands), and, on completion of the Boulder Dam, the power available will be twice the amount now sold.

9—Water conservation would not be assured, for that depends on the state's ability to sell its energy and water at a price to pay the interest and principal of the revenue bonds.

10—There would be an irresistable insistence that th estate, which got the money from the bondholders and used it, was under moral obligation to repay the millions so borrowed and lost. The taxpayers would stand the losses.

Where Los Angeles Park Fire Killed Many

Rescue workers are shown above as they searched for victims in Griffith Park, on the outskirts of Los Angeles, where a blazing brush fire entrapped more than 100 men and cremated many. The death list may pass 60. The charred bodies of three victims are shown in the foreground. The men trapped in the blaze were unemployed Los Angeles residents who had been given relief work in the park.

MANY AID STRICKEN CAMPTONVILLE FAMILY

CAMPTONVILLE, Oct. 26—The subscription list for the benefit of Frank Bobb and his family, being taken at the Meek Mercantile Company store is increasing each day, and to this reading, stands as follows:

Guy C. Tablet, $1.
John J. Kelly, $1.
Kate Livingston, $1.
A. B. Massa, $1.
Frank Massa, $1.
F. J. Joubert, $2.50.
Andrew Massa, $1.
W. B. Meek, $1.

SANTA MONICA MAN TO OPEN GRAVEL MINE

Mr. Menzes of Santa Monica has taken over a piece of gravel property north of Auburn and is busily engaged running a drift. As soon as gravel is being taken out in paying quantities he intends to put in a concentrator and install a small mill.

Mr. Menzes, who, is 70 years of age, operated placer properties in Australia and the Philippines, the latter ground being in the territory of the head hunters or Igotes a dwarf savage tribe.

He was also associated with the famous John McSweeney, 89 years of age now, who built railroads through Death Valley and other desert districts.

NEV. CITY BOYS HAVE CHANCE TO JOIN NAVY

Announcement has been made by Chief Yoeman Cannon, in charge of the Navy Recruiting Station, San Francisco, located at 100 Harrison street, that the Navy is now accepting men between the ages of 17 and 25 for enlistment. He stated that the Navy is now doing selective recruiting, and that men applying for enlistment must be ciitzens, of good character, physically fit, not married, and of average intelligence. A high school education is not required. Men with police or juvenile records will not be considered for enlistment.

Applicants must make application in person at the San Francisco office, and as only a limited number of men can be enlisted in any one month, Mr. Cannon suggests that men residing in Nevada City or vicinity take advantage of this opportunity and make application immediately in view of the fact that from one to two weeks is required to complete his investigations under the new selective recruiting system.

EMPRESS MINE DRIFTS ON 1000 FOOT LEVEL

At the Empress mine in the Newtown district west of Nevada City, has a crew busily engaged running four drifts on the 1000 foot level.

Contract work on the 500 foot level has been discontinued for the present.

There is an 80 ton daily capacity mill on the property.

Ed C. Jacobs, superintendent, took over this property for his company about two years ago and has developed it from an abandoned shaft with refractory ore, into one of the leading mines of the Nevada county field.

SUBSCRIBE FOR THE NEVADA CITY NUGGET NOW.

MACK MINES SHAFT IS DOWN 70 FEET

Bruce Wallace, superintendent of the Mack Mines, Ltd., has now reached a depth of 70 feet in the new hard rock shaft. The property is located in the Canada Hill section southeast of Nevada City, where large amounts of gold have been taken out in the past.

The company expects to cut the vein on the 125 foot level. Eight men are now employed at the property.

Gilbert Davies, who teaches at Angels Camp, spent the past week-end in Nevada City with relatives.

N. R. S. REGISTER OFFICE FOR CAMPTONVILLE

CAMPTONVILLE, Oct. 26—Acton M. Cleveland has been designated to register men for the National Reemployment Service (N. R. S.) for this section of Yuba county, and any of those who have not already filed application may now do so at Camptonville, thus saving the trip to Marysville just for this purpose. Men thus registering are eligible for work at the N. R. S. camp to be established at Freeman's Crossing. Only those who are established residents of Yuba county are entitled to register at this place.

NEW HEADFRAME FOR ALCALDA MINE SHAFT

The Native Gold Mining Company has erected a new 60 foot headframe over the Alcalde shaft, located six miles northwest of Grass Valley, in the Rough and Ready district.

Equipment of the mine is complete with a hoist, compressor, blacksmith shop, and office buildings.

The shaft is of three compartments and it is expected that it will be sunk to the 600 foot level. It is 700 feet from the old Alcalde workings and from it the ore below the old stopes can be crosscut.

The company expects to realize considerable money from the ore now blocked out in the old workings which was too low grade for amalgamation, but is adapted to flotation.

All machinery is electrically equipped and it is expected that operations will start within a few days.

Jack Berger of San Francisco is president and Mike McQuire, of Grass Valley, is mine superintendent.

Dan Higgins, who is employed in the printing department of the state controller's office in Sacramento, was a week end visitor with Mr. and Mrs. Davis in Willow Valley. Upon his return he was accompanied by his wife who spent a week visiting at the Davis home.

NEW BRUNSWICK NOW UNWATERED TO 575 LEVEL

Rapid progress is being made in reconditioning of the shafts of the old and New Brunswick mines on the Idaho-Maryland mine co. ground, north east of Grass Valley.

Unwatering of the new Brunswick shaft is now down 575 feet while water has been pumped out to the 900 foot level in the old shaft.

The headframe of the old Brunswick mine is half up and the hoist and compressor are in place.

Errol Mac Boyle is managing director.

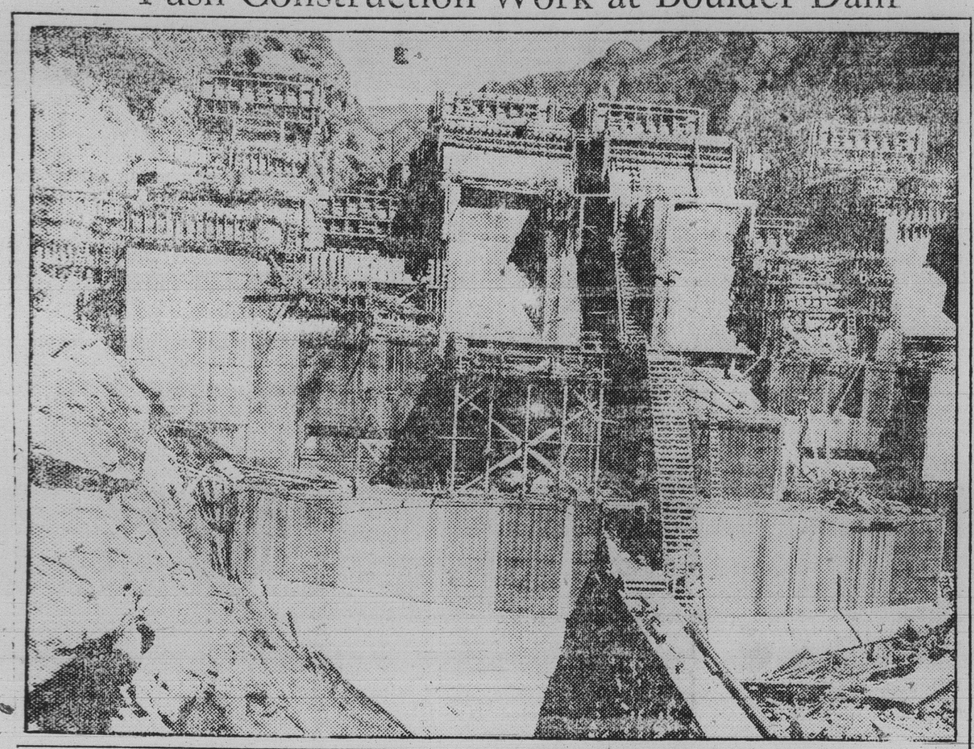
Lieut. Allen Chapman came up from the Presidio Monday and returned with his children, Ernest and Marylin, who have been staying here with their grandparents, Dr. and Mrs. C. W. Chapman and attending the schools here.

Push Construction Work at Boulder Dam



This close-up of reinforced concrete section of Boulder Dam illustrates the progress made thus far on the $165,000,000 federal government project. When completed, the gigantic dam will create a lake of 275 square miles, control flood waters, and generate an enormous amount of electric current, besides furnishing water to southwestern cities for irrigation and other uses.

NEW OWNER TO REMODEL TOGNARELLI PROPERTY

G. E. Demmin, who recently purchased the property of John Tognarelli, corner of Spring and Pine st., on Wednesday moved in and assumed active management. As rapidly as possible he will remodel and convert the commodious brick building into a hotel.

John Tognarelli announced that he will return to the mining business with which he was connected for a great many years.

LUMBER TALKS

A Prosperous Year

Oh Pluvius, we thank you
For sending us the rain;
We now shall plant some orchard trees
And sow the golden grain;
Your promise of a prosperous year
Has made us happy, Pluvius dear.

But—Pluvius wait a moment,
A bone we'd pick with you;
Why did you not informs us
When that big storm was due?
It caught us with a leaky roof
And other things not weather proof.

That wet spot on the ceiling
Gave all the fam'ly pain;
You bet, we'll mend that leaky roof
Before it storms again!
Meanwhile, thanks to you, Pluvius dear,
You've promised us a prosperous year.

A. M. C.

LEAKS?

Well, for the love of Mike, whose roof leaked this time?

Altho we are not in on the know with the weather man, we knew that fall and winter rains were sure to come, hence we stocked our yards with shingles of qualities and kinds.

Upon receipt of your call or phone No. 29, we will deliver to you, Cedar Shingles either Perfects, No 2 Clear or No. 3 Clear. Too, we carry both fir and Sugar Pine Split Shakes--Roll-roofing of various weights and composition shingles of all designs.

Orders for shingles and roofing are coming to us-let yours be next.

Our prices are right, and our service is cheerfully given.

Hallowe'en Program at School in Washington

BY MRS. CLYDE M. COLE

WASHINGTON, Nov. 1.—A Hallowe'en entertainment was given on Tuesday afternoon by Miss Mary Jones, teacher of the school. After the program games were played and dainty refreshments served. All enjoyed a very happy afternoon. The program follows:

A Smile .....Norman Foster
Hallowe'en ..... P. Crowley
Reading, Hallowe'en ....N. Hughes
Songs by the first and second grades.

A Song for Hallowe'en..... C. Siler
Hallowe'en Song ....Beatrice Fontz
..... Clyde Cole
All Hallowe'en .....Earle Foster
Songs by th eschool, Geography Song, Jack-o-lantern.

Mesdames Schiffner and Farmer Joint Hostesses

Mrs. Otto E. Schiffner and Mrs. F. Farmer were joint hostesses at a delicious harvest dinner at the home of Mrs. Schiffner Monday afternoon.

Decorations in the spirit of Hallowe'en and lovely autumn leaves and flowers gave charm to the bright happy group gathered for the delightful event. Hallowe'en decorations were also used on the tastefully arranged table.

Those present were: Mesdames. J. Widauf, J. Roberts, Towel, Lacey Jones, George Bobst, Ett Los Kamp, O. Schiffner and Frank Farmer.

P. T. A. Will Give Good Program Today

A regular meeting of the Parent Teachers Association will be held at 2 o'clock this afternoon in the Washington school building.

After the business of the afternoon is over there will be a discussion of child problems.

A good attendance of members is desired.

PREPARATIONS MADE TO REOPEN BLACK BEAR

Construction of ore bins and a headframe at the Black Bear mine in the Rough and Ready district are now under way.

This property is owned by the Cooley Butler interests. The company is re-opening the old horizontal shaft of this early day producer.

A mill is to be erected at the Black Bear mine for the processing of the ore.

E. M. Symes is foreman under L. S. Wincapaw, superintendent.

GRASS VALLEY CAFE UNDER NEW OWNERSHIP

Mrs. Betty Clark of San Francisco has purchased the Grass Valley cafe, taking possession on November 1. She states that she will continue the speciality of extraordinary good coffee and will add to that workingmen's lunches and chicken dinners. She has obtained the concession of providing a turkey dinner for the Legion members on Armistice Day in Memorial hall, and for the Legion Auxiliary in the cafe on Main street, Grass Valley.

Mrs. Frank Merrill of Sacramento spent the week end in Grass Valley with her daughter, Mrs. Frank Valvin. Last Sunday she attended a birthday dinner given in honor of her sister, Mrs. Mary Guenther in Nevada City.

An Army of 10,000 Goes Daily to Work!

This is a simple story that tells itself—a story of one of the most important contributions this company has made to the welfare of the territory we serve.

During the past twelve months we have maintained a steady force of 10,000 workers. We have done this in the face of adverse business conditions, reductions in rates, and increases in taxes.

There is much talk these days of "man hours" of employment. We believe we have done our part in providing "man hours". The record shows 20,665,000 "man hours" in those twelve months. These hours represent a

$16,850,000 Payroll.

This money has supported families, maintained homes, kept children in school, and in every Northern and Central California community found its way to the grocer, the butcher, the plumber, the doctor — to every line of trade and industry.

Your utility service means more than your immediate convenience and comfort. It means the continuing daily march to work of 10,000 of your fellow citizens.
